

# General Manager's Report Ridership Update

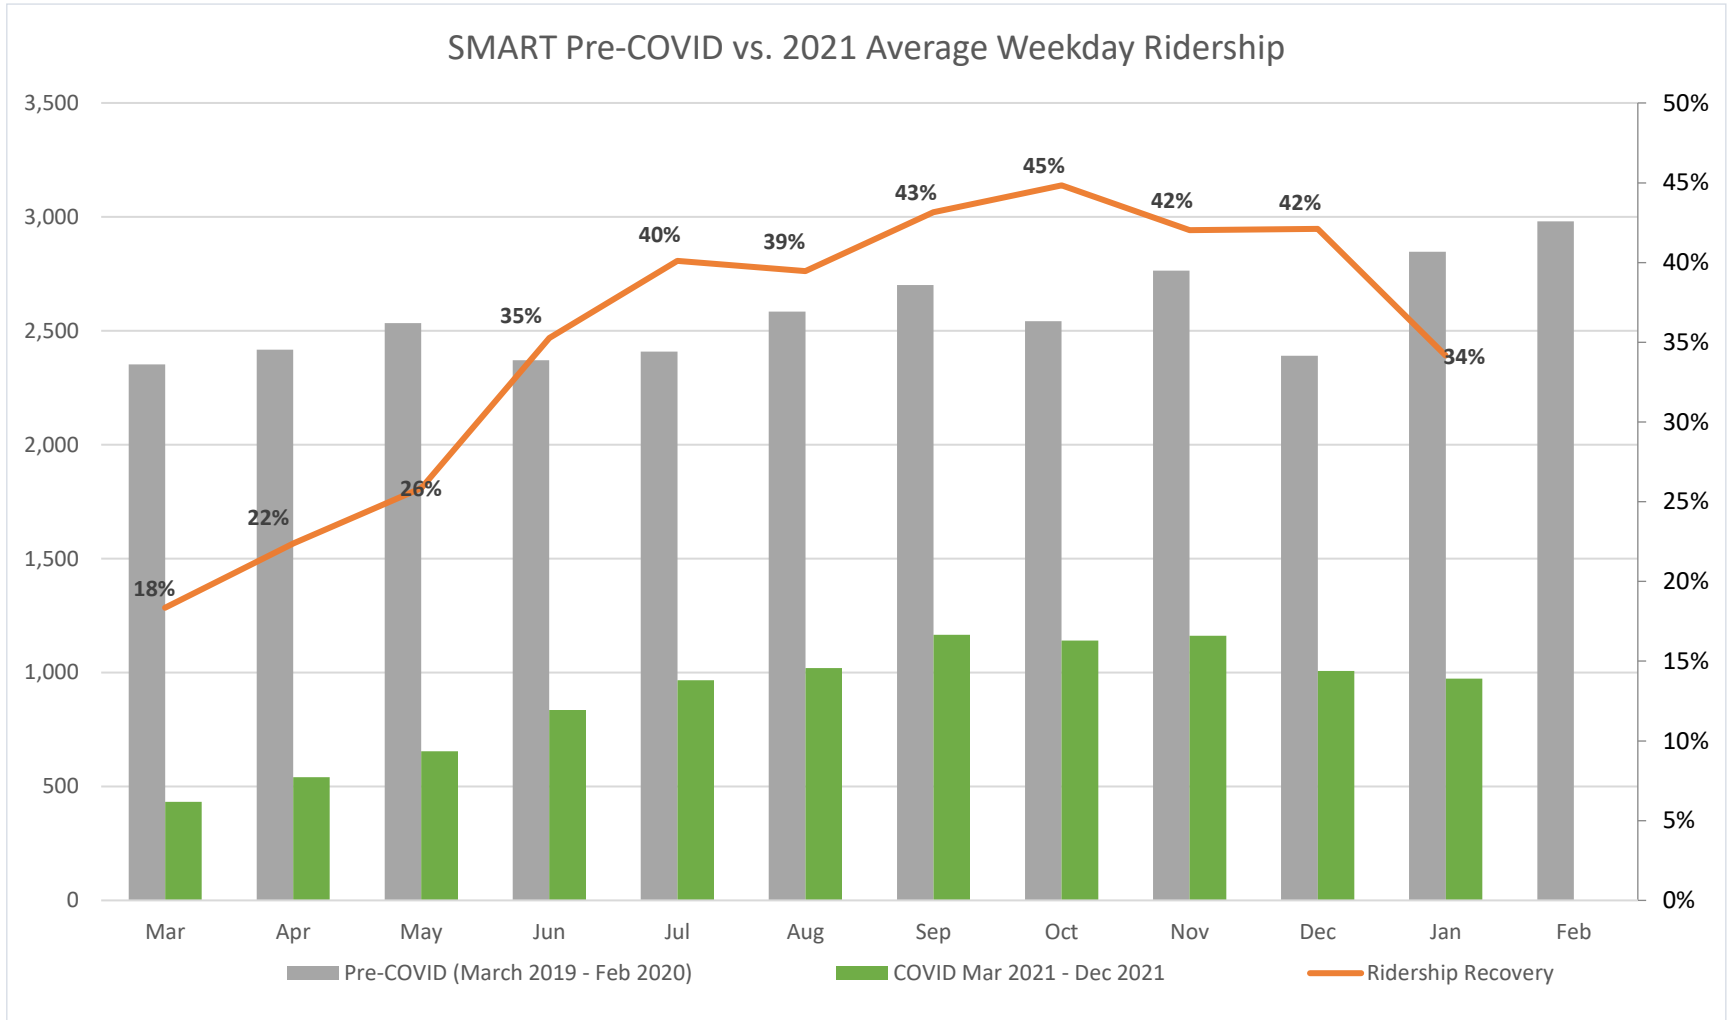

February 2, 2022

### SMART FY20 - FY22 Monthly Ridership

- January ridership saw a dip as Omicron spurred another wave of workplace and school closures.

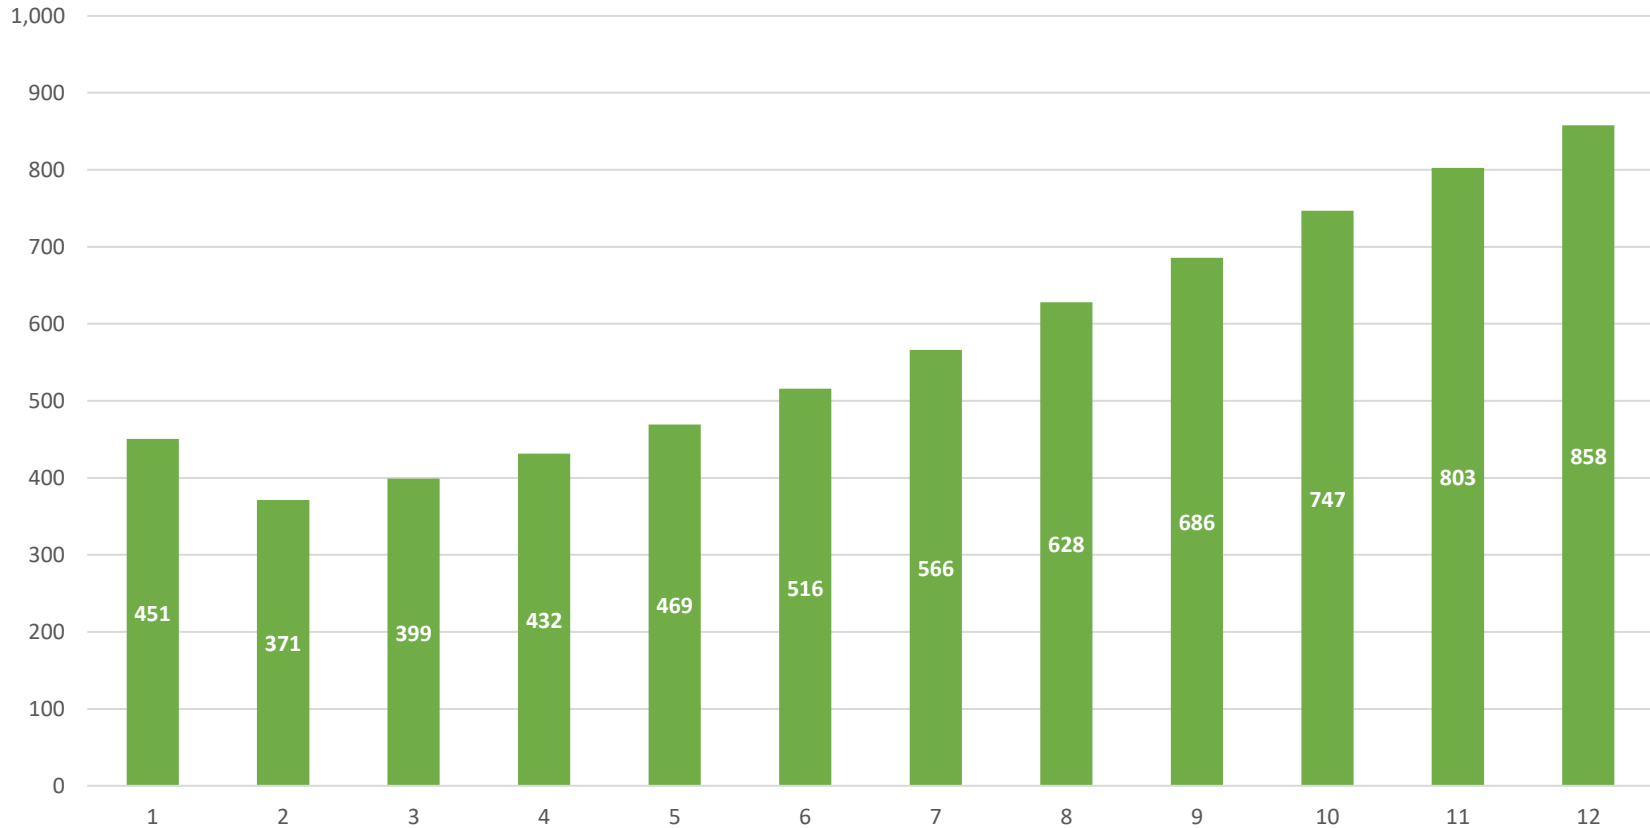

- January Average Weekday Ridership was at 34% of Pre-COVID numbers.

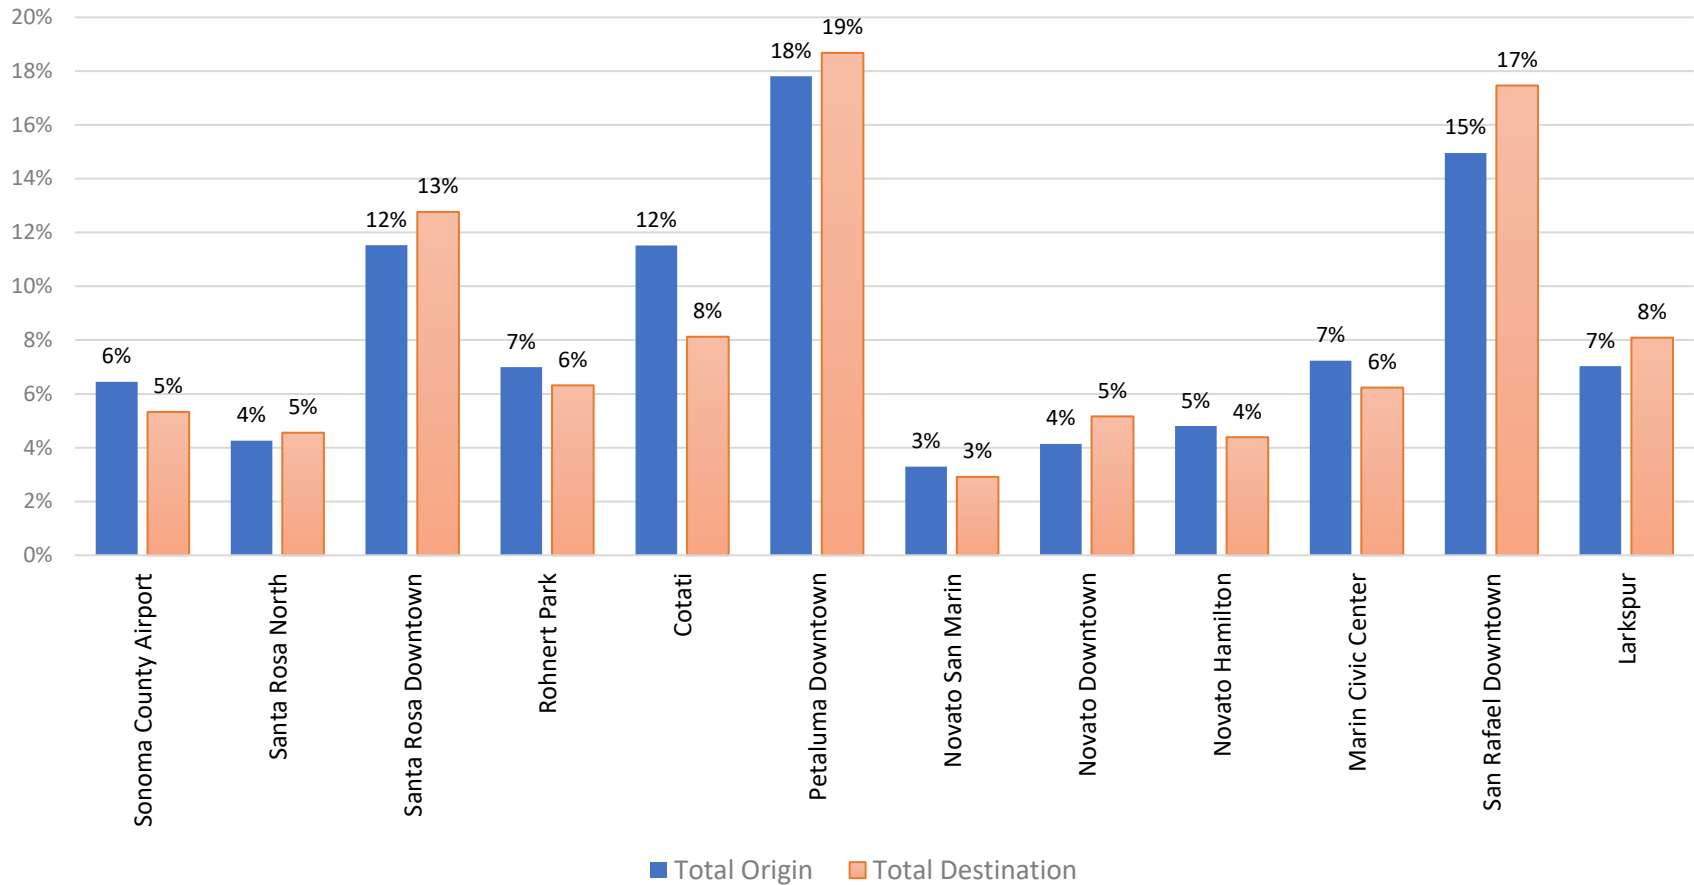

### SMART 12-Month Average Weekday Ridership Average (Feb 2021 - Jan 2022)

- The 12-month average continues to climb, despite monthly ridership fluctuations.

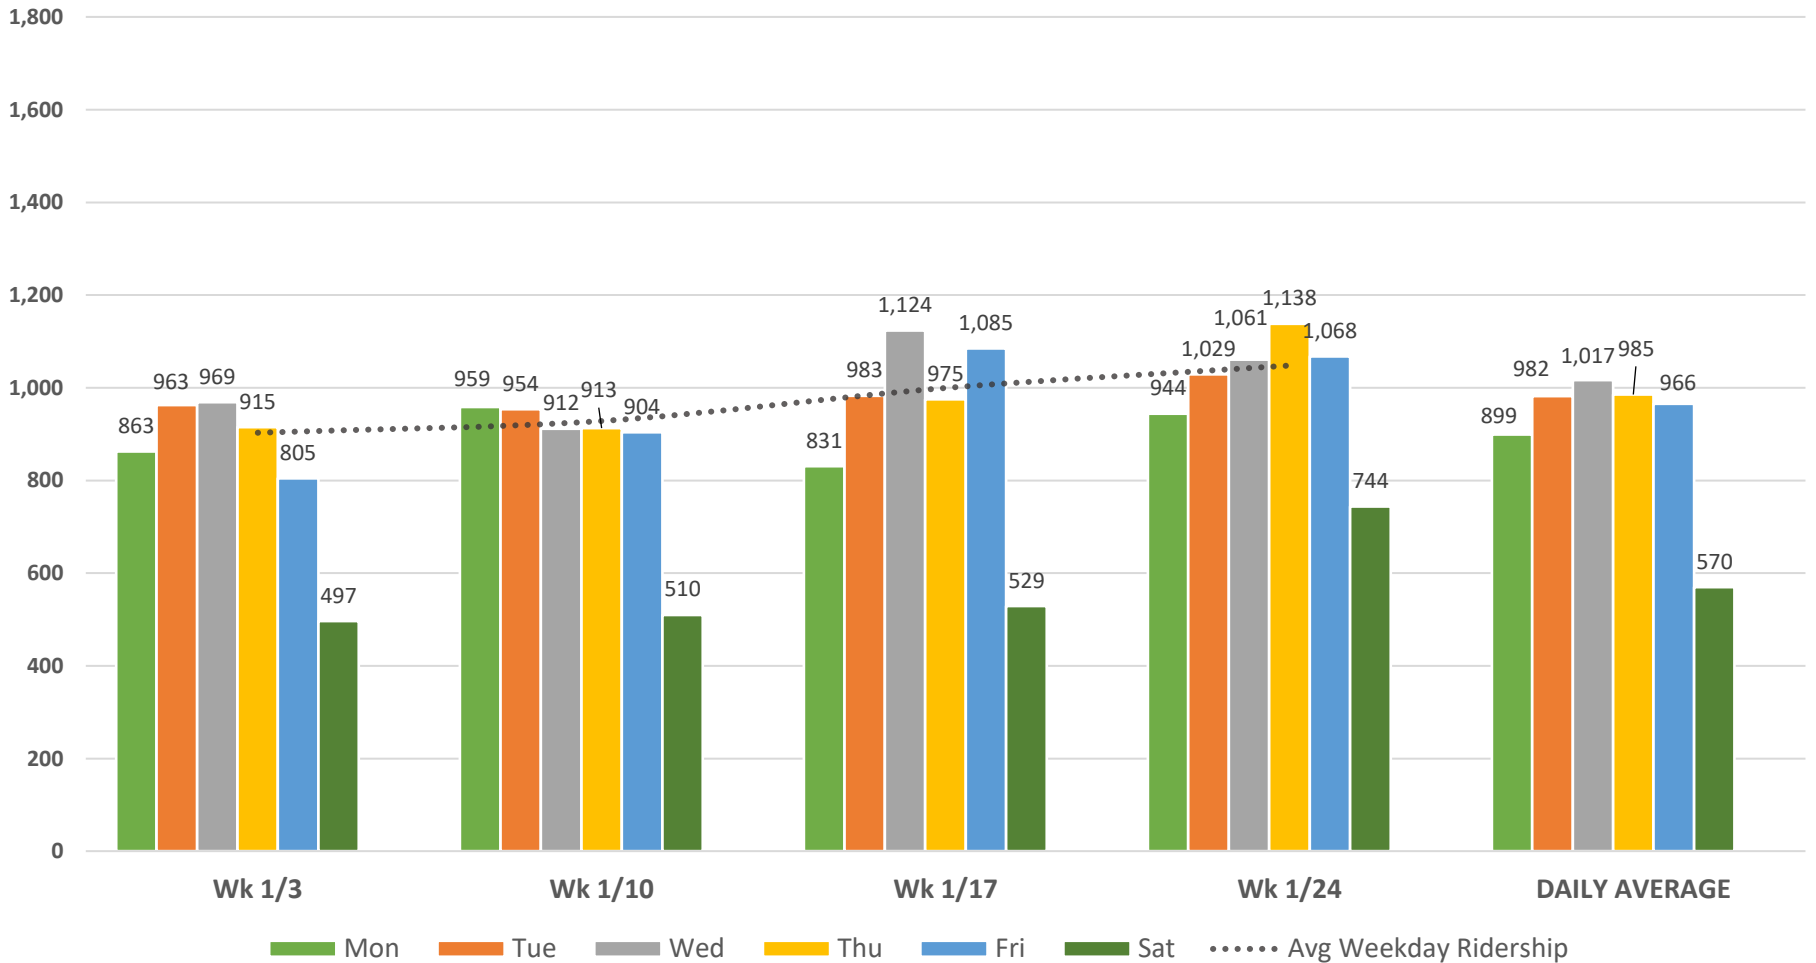

## Origin/Destination Comparison (Post-COVID)

- The highest origin/destination station is Petaluma Downtown, followed by San Rafael and Santa Rosa.
- Patterns by Station are very similar to pre-COVID.

SMART Ridership by Day of Week (Previous 4 weeks)

- Average ridership is highest on Wednesdays, followed by Tuesday and Thursday.
