MEDIA ADVISORY

SMART completes testing for Novato Downtown station

Sonoma-Marín Area Rail Transit (SMART) is pleased to announce that testing for the new Novato Downtown station was completed on the weekend of November 8-10. The railroad crossings at the Franklin Avenue pedestrian pathway, Grant Avenue, Olive Avenue, Golden Gate Place, and Rush Creek Place, passed all required tests. Additionally, SMART's Positive Train Control system also successfully passed all the required tests.

SMART looks forward to opening the Novato Downtown and Larkspur stations by the end of this year.

Please check SMART's website: www.SonomaMarinTrain.org for more information and updates about service expansions to Larkspur and Novato.
